

## **Clear Language**

November 1 / 2, 2013  
Sheraton, Toronto

I would like to thank the members for allowing me to attend the “Clear Language” class that took place over the weekend.

The two instructors covered various subjects such as the process of making the language of contracts clearer, how not to waste time and make the message clearer, understanding is a right, are members understanding what we’re trying to communicate?

A general guideline of how to create a clear message was reviewed and discussed. I feel this will help in the general process of creating documents on behalf of the Union.
